**ATTACHMENT A****Amendments to the Claims**

This listing of claims will replace all prior versions, and listings, of claims in the application.

1. (Currently Amended) A method of treating a subject suffering from ~~or at risk from~~ a cancer selected from the group consisting of breast cancer, and liver cancer and melanoma, the method comprising:
  - (i) preparing a pharmaceutical composition by a method comprising
    - (a) comminuting rhizomes of *Fagopyrum dibotrys*;
    - (b) extracting the comminuted material with a solvent comprising a C<sub>1</sub>-C<sub>4</sub> alcohol to produce a liquid extract; and
    - (c) removing solvent from the liquid extract to produce a dried or concentrated material; and optionally
    - (d) fractionating the dried or concentrated material; and
  - (ii) administering the pharmaceutical composition to the subject.
2. (Original) A method according to claim 1 wherein the solvent comprises ethanol.
3. (Previously Presented) A method according to claim 1 wherein an excipient is added to the liquid extract and step (c) comprises drying under reduced pressure to produce a dry material.
